**GUIDELINE OF PDR TREATMENT**

Please read following guideline carefully before you order PDR treatment service.

1. Purpose

PDR treatment is done to preserve the remain well to keep time for family and relatives of the deceased person.

2. Treatment

PDR West Japan will treat the remain with washing, disinfection, making up for preservation of body, prevention of disease. We inject legal medicine for that purpose to excrete blood and liquid from the remains. After finishing PDR treatment, we make up face, hair, fit the cloth. Some parts of body will be cut for excrete and injection, however the cut part will be recovered properly. In case the remains is wounded, we will restore the part with possible efforts.

3. Important Notice

- 1) If time passed longer than 3 days after decease, or in case the deceased person was sick, the color of some parts in body might get changed, or generate edema.
- 2) If the wound is very serious, we might not be able to recover all the part.
- 3) To start PDR treatment, please submit the dead certificate (issued by hospital) and the photo of the deceased person. The purpose of use is confirmation and for better treatment. The certificate and photo will never be used for any other purpose. The privacy of the deceased person and family will be protected.

4. Criteria of PDF treatment

All the process and treatment will be done following law and our internal high standard of service.

- 1) PDR treatment is done by our highly experienced certified embalmer in the special vehicle.
- 2) We ask for the sign from the client who is within SECOND DEGREE of kinship of the deceased person. If someone within SECOND DEGREE kinship opposed to treat PDR, we will not proceed PDR treatment.
- 3) Except international transportation, we cannot preserve the remain 50 days after PDR treatment.
